Suitable for: Forklifts, Bobcats and Backhoes

Check Your Loads!

Safety

- stops overloading equipment

Cost Effective

- avoids transport overload fines
- checks weight of incoming goods

**DIGITAL MODELS ARE
ALSO AVAILABLE**

Features:

- Accurate - average accuracy is within 1% of full scale.
- 6" (160 mm) diameter scale is highly visible
- Stainless Steel construction and liquid filling ensures long life
- Protected - the gauge is operated by a gauge isolator so that it is protected from overload and lifting shocks. The gauge is only in use when you operate it.
