Compuload CPS-P series

Powder coated Platform Scale

Compuload CPS-P series powder coated platform scales come in three sizes - 800 x 800mm, 1200 x 1200mm and 1500 x 1500mm plus custom sizes on request. Built to a standard not a price yet remain reasonably priced. These scales are manufactured in steel and are finished in a French Blue powder coated to provide the user with long service life. The top weighing deck is finished with a 5mm checker steel and is ideally suited to all dry goods, manufacturing, logistics and general dry weighing environments etc. At the heart of each scale are the loadcells and for this reason Compuload use Zemic Omil approved series of IP67 shear beams, which carries a 1 warranty, refer to separate data sheet for full specifications. A choice of indicator display is available depending on requirements.

Compuload 1200mm Platform Scale
